In pursuance the Regulations 2.4, Collection of securities transaction tax shall be as under:

6.1. Securities Transaction Tax (STT) Computation:

Members may note that the following procedure shall be adopted by the Exchange in respect of the calculation and collection of STT:

1. STT shall be applicable on transactions for both futures and option contracts executed on exchange, as specified in circular issued by Exchange from time to time
2. STT shall be determined at the end of each trading day.
3. All the transactions shall be identified based on the client code placed by the members at the time of order entry on the trading system of the Exchange and as may be modified by the member using the client code modification facility provided by the Exchange within the prescribed time viz. during trading hours and upto the trade modification close time on the respective trading day. In respect of proprietary transactions the member code shall be deemed to be the client code.
4. Members may note that the value of taxable securities transaction shall be determined with respect to the trade executed under a particular client code. Therefore Exchange shall only reckon the client code entered by the member while placing the order or as may be modified within the prescribed time. It is therefore imperative that members exercise extreme caution and diligence while entering the client code at the time of entering an order.
5. For each client code, all the sell transactions for a trading day shall be aggregated at contract level.
6. For the purpose of STT, each futures trade shall be valued at the actual traded price and option trade shall be valued at premium. On this value, the STT rate as prescribed shall be applied to determine the STT liability. In case of final exercise of an option contract STT shall be levied on intrinsic value on the day of exercise if the option contract is in the money. Intrinsic value has been defined as the difference between the settlement price and the strike price of the option.

Sr.No.	Taxable securities transaction	Payable by
A	B	C
A	Sale of an option in securities	Seller
B	Sale of an option in securities, where option is exercised	Purchaser
C	Sale of a futures in securities	Seller

- (a) Value of taxable securities transaction relating to an “option in securities” shall be the option premium, in case of sale of an option in securities.

- (b) Value of taxable securities transaction relating to an “option in securities” shall be the intrinsic value, in case of sale of an option in securities, where option is exercised.
7. STT at the rates as applicable to the delivery based equity transaction i.e @0.10% shall also be applicable on the physically settled stock derivatives (both Futures and Options). The said STT will be payable by both the Purchaser (receiver) of the securities as well as by the Seller (giver) of the securities.
8. STT payable by the clearing member shall be the sum total of STT payable by all trading members clearing under him. The trading member’s liability shall be the aggregate STT liability of clients trading through him.

6.2. Information to members

A report shall be provided to the members at the end of each trading day. This report shall contain information on the total STT liability, trading member wise STT liability, client wise STT liability and also the detailed computations for determining the client wise STT liability.

6.3. Client code modification

As explained above, since the Exchange shall be reckoning the client code entered by the members, members are advised to carry out client code modification, if any, within the prescribed time viz. during trading hours and up to the trade modification close time on the respective trading day. The Exchange shall not entertain any request for modification thereafter.

6.4. Pay-in of funds

Clearing members shall be required to pay the STT on T+1 day. STT on exercise of options on securities which are identified for physical settlement and on physically settled stock derivatives (both Futures and Options) shall be collected on Expiry + 2 day along with pay-in for delivery settlement of equity derivatives.

The STT amount shall be collected as per the timelines stipulated for the funds pay-in. A separate transaction shall be created and the monies shall be collected from the settlement account of members through their clearing banks as per the process currently followed in respect of settlement obligations.

6.5. Failure to pay funds

Non-payment of STT shall be treated as non-fulfilment of settlement obligations for the purpose of all consequential actions against the member.

6.6. Information to clients

The contract note should specify the total STT for the transactions mentioned therein. Detail of STT shall be provided by the member as specified by the Exchange from time to time.

However details of trade wise STT shall be provided by the members on an annual or periodic basis to clients on their specific request if the same is not provided in the contract note or along with the contract note.

8.6. Direct pay-out to Beneficiary Account

A facility shall be provided to the clearing members to directly credit the pay-out to client's beneficiary account. Clearing members shall provide a file to Clearing Corporation for effecting pay out to client's accounts for a particular settlement type and settlement number. Clearing members shall have to mention the beneficial owner's account number entitled to receive the payout of securities. The direct payout of securities can be credited to the client's account regardless of the depository in which the securities pay-in is received. In case of a shortage, the quantity credited to the client account will be to the extent of net payout received by the clearing member. The process for effecting pay out to client's accounts directly is detailed in **Part C (5) Direct Payout to Client account**

8.7. Securities payout to preferred depository

In addition to the direct delivery of securities to the client account, clearing members shall also have a facility to receive their payout in their preferred depository.

Clearing members have a facility of preferred depository wherein payout receivable by members can be credited to the specified pool account in either of the depositories viz. NSDL or CDSL. Clearing members are requested to take note of the following:

- The securities payout shall be after giving effect to any client direct payout instructions which may have been provided by clearing members for the respective security for the respective settlement. In the event of a failure of a client payout instruction at the depository, the payout shall be effected to the respective depository pool account.
- Clearing members shall ensure that they get their account details updated in case of shifting /change of account etc. to ensure that the payout happens to the preferred depository pool account.
- The preferred depository shall be the same as selected by the clearing member for the Capital Market segment.

8.8. Shortage Handling

- Failure of the seller to deliver securities shall result in buy-in auction for the shares by Clearing Corporation as per auction schedule declared periodically. Auction shall be conducted on Expiry+3 days and settled on Expiry+4 days. The auction amount shall be charged to the short delivering member. Failure to procure shares in auction shall be closed out. Auction for shortages shall be conducted in Capital Market Segment of the Exchange under a separate series. Pay-in and payout for auction settlement shall be as per the schedule declared by Clearing Corporation.
- Clearing member who fail to deliver shall be debited by an amount equivalent to the securities not delivered valued at valuation price. The valuation price shall be the MTM settlement price of such securities in Capital Market Segment, on the immediate trading day preceding the pay-in day for the securities.
- When the Clearing Corporation is satisfied that securities cannot be bought in auction, obligation in such security shall be deemed to be closed out. When the auction seller fails to deliver in part or full on auction pay-in day, the same shall be closed out

- Auction shall not be conducted for shortages in the securities which are under corporate actions. Such shortages shall be closed out directly.
- Close out shall be at the closeout price of the security as determined in Capital Market Segment.
- Members shall be required to upload details of securities pay-in/pay-out shortages on a daily basis to Clearing Corporation. The detailed procedure and file format for the same has been specified in **Part C (6)** –‘Format of uploading securities pay-in / pay-out shortages’

ITEM 9: LIQUID ASSETS

A clearing member may deposit liquid assets in the form of cash, bank guarantees, fixed deposit receipts and approved securities and any other form of collateral as may be prescribed by the relevant authority from time to time.

Clearing member may request the Clearing Corporation to release deposits held by the Clearing Corporation. Such requests may be considered by the Clearing Corporation if the Clearing Corporation chooses not to exercise its lien pursuant to the Rules, Byelaws and Regulations and subject to availability after due adjustments for the due fulfilment of all obligations and liabilities arising out of or incidental to any deals made by such clearing member and / or trading members clearing and settling the deals through such clearing member and subject to the bye laws, rules and regulations of the Clearing Corporation or anything done in pursuance thereof.

The web based facility of CIM is provided for submission of release requests of collaterals. The clearing members may select the desired available collaterals for release. Release requests though CIM can also be placed using a file upload facility. The format of the file to be uploaded by the clearing member is provided in **Part C (33)**-File format for requesting collateral releases.

9.5.1. Collection of released collaterals

The representative of clearing members coming to collect released FDR/Bank guarantee is required to carry an authorization letter.

The released FDRs/Bank guarantee under immediate release mode can be collected on same working day of the release from regional office where as FDRs/Bank guarantee released under value date release mode can be collected on requested value date of the release from regional office.

9.5.2. Release of cash collateral in designated secondary account

Clearing member may request for release of collateral in any of the designated clearing account. In case a clearing member opts for cash release to the secondary clearing account the following points may be noted

- Clearing member who wish to release cash collateral in designated secondary account shall select the designated secondary bank while raising the release request in CIM
- Clearing member can raise the request to release cash to its designated secondary account only on an Immediate or End of Day basis. There will be no value date facility for release of cash collateral in designated secondary account.
- The facility shall be available only for cash deposited during the day from the secondary account in the respective segment.

9.6. Transfer of Collaterals

Clearing members shall be permitted to place intra-day transfer request for fungible securities which are re-pledged with Clearing Corporation towards margin deposit using margin pledge re-pledge mechanism provided by NSDL and CDSL.

The modalities of intraday transfer are mentioned below:

- Only securities re-pledged to Clearing Corporation with segment indicator as ALL shall be considered as fungible and shall be eligible for transfer.
- Securities re-pledged with segment indicator as ALL shall be added in the segment where the member is having active clearing membership in the priority as defined below
 - Futures and Options Segment
 - Capital Market Segment
 - Currency Derivatives Segment
 - Securities Lending and Borrowing
 - Commodities Derivatives Segment
- If the clearing member wishes to change the priority of the segment may do so by providing the details of the required priority segment to Clearing Corporation
- Clearing Member can put the request to transfer fungible security by way of a file upload option available in CIM- Release - File Upload. The format for transfer file upload is provided in **Part C (34)** - 'File format for transfer of fungible securities'
- The request to transfer shall be processed at pre-defined intervals in batches during the day
- The request to transfer shall be checked for margin sufficiency in the source segment. In case the margin is insufficient then the transfer request shall be partially accepted or get rejected
- The request shall be considered valid only if the CM/CM-TM/ CM- CP in the source segment is also valid in the target segment.

- Transfers requests with Pledge Sequence Number /BP Instruction ID specified by clearing member shall be processed for that particular Pledge Sequence Number /BP Instruction ID only for releasing from source segment

9.7. Allocation of Collaterals

9.7.1. Procedure for collateral allocation

- While depositing Cash, FDR, BG or Government Securities provided through the SGL/CSGL route (Hereinafter referred to as “Other forms of collateral”), the Clearing Members (CMs) shall allocate these collaterals into proprietary account of CM, and/or proprietary account of any Trading Member (TM) clearing through the CM, and/or account of any of the clients (including Custodial Participants (CPs)) clearing through the CM, and/or of any of the clients trading through the TM who in turn is clearing through the CM, segment-wise
- The benefit for the other forms of collateral deposited shall be provided by Clearing Corporation only after receiving the allocation of the same from the CM
- The amount of collateral allocated shall not exceed the amount of collateral received by the TM/CM from the client and reported as such under the client collateral reporting
- mechanism. Also, the allocation of collateral shall not be lower than the amount of collateral (except securities collateral re-pledged) reported under the client collateral reporting mechanism as having been passed on by the CM to Clearing Corporation.
- CMs shall also perform the aforementioned checks in respect of the allocation received by them from the TMs clearing through them.
- The total allocation by CM cannot exceed the total other form of collateral deposited by the CM with Clearing Corporation.
- The allocation provided by the CM to Clearing Corporation shall be considered as final by Clearing Corporation for the purpose of granting exposure and utilization during default.
- The detailed procedure for addition and allocation of various forms of collateral (other than securities placed through margin pledge mechanism) is specified in **Part C (35)** - 'Format for allocation of collateral'

9.7.2. Collateral Valuation

CMs are required to maintain at least 50% of the total collateral in the form of cash or cash equivalents. For the purpose of monitoring of at least 50% cash-equivalent collateral at the level of CM, the excess cash-equivalent collateral of a client shall not be considered for other client or for proprietary account of TM/CM. However, the excess cash-equivalent collateral of proprietary account of TM/CM shall be considered for clients trading/clearing through them, for the purpose of monitoring minimum 50% cash-equivalent requirement. An example for the same is provided in **Part C (36)** – ‘Example for collateral valuation’

9.7.3. Change of allocation

CMs shall be permitted to change the allocation of other forms of collateral deposited with Clearing Corporation (including change to another segment where the member is CM). CMs to ensure that the value allocated to any TM/CM/client does not exceed the value of actual collateral received from that TM/CP/client (excluding the securities collateral through margin pledge mechanism and repledge to Clearing Corporation). However, such change of allocation shall be permitted subject to adequacy of available collateral with Clearing Corporation after the change vis-à-vis the margin obligation of CM/TM/CP/Client. An example for change in allocation is provided in **Part C (37)** – ‘Example for change in collateral allocation’.

9.7.4. Withdrawal/ Maturity of collateral

- Other forms of collateral shall be released only if sufficient amount is available as unallocated collateral. Accordingly, CMs shall ensure that sufficient amount is unallocated prior to placing release request for other forms of collateral
- In case of collateral provided in the form of BGs and FDRs; the value of the matured BG/FDR shall be reduced from CM’s collateral as per the existing process. Due to this, the CMs may go into risk reduction mode because of reduction in the collateral limits

ITEM 10: MARGINS

In pursuance of Chapter VIII of the Bye-laws pertaining to Margins and Chapter 4 of the Regulations, the following margin requirements are prescribed:

10.1. Initial Margins

Initial margin shall be payable on all open positions of Clearing Members, upto client level, and shall be payable upfront by Clearing Members in accordance with the margin computation mechanism and/ or system as may be adopted by the Clearing Corporation from time to time.

Initial Margin shall include SPAN margins, , margins on consolidated obligation, delivery margins and such other additional margins, that may be specified by the Clearing Corporation from time to time.

10.2. Computation of SPAN Margin

Clearing Corporation shall adopt SPAN[®] (Standard Portfolio Analysis of Risk) system or any other system for the purpose of real time margin computation.

Initial margin requirements shall be based on 99% value at risk over a time horizon as determined by Margin Period of Risk for each product

The methodology for computation of value at risk percentage shall be as per the recommendations of SEBI from time to time. The margin computation methodology for SPAN[®] is detailed as **in Part C (38) - SPAN margin computation methodology.**

Initial margin requirement:

1. For client positions - shall be netted at the level of individual client and grossed across all clients, at the trading/ clearing member level, without any set-offs between clients.
2. For proprietary positions - shall be netted at trading/ clearing member level without any set-offs between client and proprietary positions.

The margins so computed shall be aggregated first at the trading member level and then aggregated at the clearing member level.

For the purpose of SPAN[®] Margin, various parameters shall be as specified hereunder or such other parameters as may be specified by the relevant authority from time to time:

10.2.1. Margin Period of Risk (MPOR)

The MPOR for all products shall be set as 2 days. Accordingly, the initial margins shall be scaled up by the MPOR. For initial margins, the MPOR shall be given effect by way of scaling up the Price Scan Range used for computing the Worst Scenario Loss.

10.2.2. Price scan range

10.2.2.1. Index Products

The Price Scan Range shall be taken as higher of six standard deviations (6 sigma) as calculated for VaR purpose for the underlying index in the relevant underlying segment of the Exchange scaled up by the MPOR or 9.3% of the underlying value or such other price scan range as may be specified by the Clearing Corporation from time to time. The Price Scan Range for long dated options shall be taken as higher of three standard deviations (6sigma) as calculated for VaR purpose for the underlying index in the relevant underlying segment of the Exchange scaled up by the MPOR or 17.70% of the underlying value or such other price scan range as may be specified by the Clearing Corporation from time to time. All option contracts with expiry more than 9 months shall be treated as long dated option contracts

10.2.2.2. Stock Products

The Price Scan Range shall be taken as higher of six standard deviations (6 sigma) as calculated for VaR purpose for the relevant underlying security in the relevant underlying segment scaled up by the MPOR, or 14.2% of the underlying value or such other price scan range as may be specified by the Clearing Corporation from time to time.

The price scan range for futures and option on individual securities would also be linked to liquidity. The same shall be measured in terms of impact cost for an order size of Rs 5 lakh calculated on the basis of order book snapshots in the previous six months. Accordingly, if the mean value of the impact cost exceeds 1%, the price scanning range would be scaled up by square root of three. This would be in addition to the requirement of increasing the price scan range on account of look ahead period as may be applicable.

The mean impact cost as stipulated by SEBI shall be calculated on 15th of each month on a rolling basis considering the order book snap shots of previous six months. If the mean impact cost of a security moves from less than or equal to 1% to more than 1%, the price scan range in such underlying shall be scaled by square root of three and scaling shall be dropped when the impact cost drops to 1% or less. Such changes shall be applicable on all existing open positions from the third working day from the 15th of each month. The details of impact cost for underlying on which derivative contracts are available and the methodology of computation of the same shall be available on the Exchange website.

10.2.3. Volatility scan range

10.2.3.1. Index products

Volatility Scan Range for index products shall be taken at 25% of annualized EWMA volatility subject to minimum 4% or such other percentage as may be specified by the Clearing Corporation from time to time.

10.2.3.2. Stock products

Volatility Scan Range for stock products shall be taken at 25% of annualized EWMA volatility subject to minimum 10% or such other percentage as may be specified by the Clearing Corporation from time to time.

10.2.4. Calendar Spread Charge

In the case of futures and options contracts on index and individual securities, the margin on calendar spread positions shall be calculated on the basis of delta of the portfolio consisting of futures and options contracts in each month. A calendar spread position shall be granted calendar spread treatment till the expiry of the near month contract

The calendar-spread margin shall be charged in addition to worst-scenario loss of the portfolio. The spread charge shall be 1.75% of the far month contract for index derivatives and 2.2% of the far month contract for derivatives on individual securities..

10.2.5. Net Option Value

Net Option Value is computed as the difference between the long option positions and the short option positions, valued at the last available closing price of the option contract and shall be updated intraday at the current market value of the relevant option contracts at the time of generation of risk parameters. The Net Option Value shall be added to the Liquid Net Worth of the clearing member. Thus, mark to market gains and losses shall not be settled in cash for options positions.

10.2.6. Margins on Consolidated Crystallised positions

Clearing Corporation shall calculate and levy margins on consolidated crystallised obligation as under:

On intraday basis	Payable crystallized obligations based on the closed-out futures positions and payable/receivable premium at client level
At end-of-day	Payable obligations at client level considering all futures and options positions

Intraday basis

On intraday basis, the net payable/receivable amount at client level shall be calculated using:

1. Premium payable/receivable
2. Futures crystallized profit or loss (calculated based on weighted average prices of trades executed).

If the overall amount at client level is payable, such amount shall be the intraday consolidated crystallized obligation margin for the client.

End-of-day basis

At the end of day, the payable/receivable amount at client level shall be calculated using:

1. Futures mark to market profit/loss to be settled

2. Options premium payable/receivable
3. Options exercise/assignment for expired contracts
4. Futures final settlement for expired contracts

If the overall amount at client level is payable, such amount shall be the end-of-day consolidated crystallized obligation margin for the client. The margin on consolidated crystallized obligations shall be released on completion of settlement.

10.2.7. Delivery Margins

- Delivery margins shall be levied on lower of potential deliverable positions or in-the-money long option positions four (4) days prior to expiry of derivative contract which has to be settled through delivery. Example- If expiry of derivative contract is on Thursday, the delivery margins on potential in-the-money long option position shall be applicable from previous Friday EOD
- Client level potential in-the-money long option positions shall be computed on daily basis. In-the-Money options shall be identified based on the closing price of the security in the underlying Capital Market segment on the respective day
- In-the-money long option positions shall be valued at strike price and marginable positions shall be valued at underlying closing price
- Delivery margins at the client level shall be computed as per the margin rate applicable in Capital Market segment (i.e VAR, Extreme Loss Margins) of the respective security.
- Delivery margins shall be levied at client level and collected from clearing member in a staggered manner as under
 - 10% of Delivery margins computed on Expiry - 4 EOD
 - 25% of Delivery margins computed on Expiry - 3 EOD
 - 45% of Delivery margins computed on Expiry - 2 EOD
 - 70% of Delivery margins computed on Expiry - 1 EOD
- The delivery margins shall be recomputed only at EOD basis considering the revised position, underlying prices and margin rates
- Post expiry, positions which are converted to settlement by delivery, margins as applicable in Capital Market segment (i.e VAR, Extreme Loss Margins, Mark to Market margins) shall be applicable and levied as delivery margins.
- Delivery margins shall be part of the initial margins of the clearing member.
- Delivery margins shall be computed at a client level settlement obligation for all positions to be settled through delivery.
- VAR and Extreme Loss Margins: - The VAR and Extreme Loss percentage as computed in the Capital Market segment shall be applied on client level settlement obligations. The margins rate shall be updated for every change in margin rate in Capital Market segment.
- Mark to Market margins - End of day mark to market margins shall be computed on expiry day and expiry + 1 day as difference between settlement obligation and value of positions at closing price of the security in the Capital Market segment of the

Exchange. Mark to market loss in one security shall be netted against profit of other security for same client. Net loss at client level shall be grossed to arrive at clearing member level mark to market margins.

- Delivery margins blocked shall be released on completion of settlement.
- Assignment margins shall not be computed on positions which shall be identified for settlement through delivery.

10.2.7.1. Early pay-in of securities

- In cases where early pay-in of securities is made, such positions for which early pay-in (EPI) of securities is made shall be exempt from delivery margins.
- Clearing members can make the early pay-in of securities through either of the depositories viz NSDL and CDSL. In NSDL, clearing members shall deliver the securities to their pool account and execute irreversible delivery out instructions through their Depository Participant for the particular settlement. In CDSL, clearing members can transfer the security to their early pay-in account with CDSL for Capital Market segment with Clearing Corporation.
- Clearing members may also provide the details of the clients to whom early pay-in benefit is to be provided through a file upload. Clearing members can upload client details file during the day through CIM. Clearing members shall receive return file providing details of successful and rejected records on the extranet server. Clearing members can modify the client and quantity details by uploading an incremental file. The file formats has been provided in **Part C (39)** - 'Format for Client level early pay-in files for securities'.

10.2.7.1.1. EPI through Client account using block mechanism

In addition to EPI from pool account members can mark EPI of securities from the client account as per the facility provided by Depositories Modalities for EPI from client account is as under:

- Clearing Corporation shall receive client details like UCC, Trading Member, Clearing Member Code from the respective source depositories where EPI of securities is marked.
- Margin benefit shall be provided considering the client details provided by the respective depositories. Accordingly, members should not provide client allocation details to Clearing Corporation in CLNTEPI file for EPI marked in the client account using block mechanism.
- EPI of securities received in excess of obligation through the client account shall be reversed in the source client account on T day.
- As required by depositories, Clearing Corporation shall share delivery obligation at client level (including UCC, PAN, TM and CM Code) for all market types on the Expiry Day to depositories
- SEBI vide its circular SEBI/HO/MIRSD/DoP/P/CIR/2022/109 dated August 18,2022, and has made the facility of block mechanism mandatory for all Early Pay-In transactions. Further, SEBI vide its circular

SEBI/HO/MIRSD/DoP/P/CIR/2022/143 dated October 27, 2022 has specified that block mechanism shall not be applicable to clients having arrangements with custodians registered with SEBI for clearing and settlement of trades.

10.2.7.2. Early Pay-in of Funds

- In case where early pay-in of funds is made, such positions for which early pay-in of funds is made shall be exempt from delivery margins.
- Clearing members shall make early pay-in funds through a screen-based request in CIM. The benefit for the same shall be provided on confirmation of funds from the respective Clearing Bank.
- Early pay in of funds may be allocated at client level or at client-security level. The allocation can be revised through a screen based request or through the file upload facility.
- Where the clearing member has provided client -security allocation, benefit for early pay-in of funds shall be allocated against the net buy position of the specified client-symbol combination and any residual amount after such allocation will not be utilized for other positions. In case of only client wise allocations, the early pay-in of funds will be allocated in the descending order of the security wise net buy value under the client and any residual amount after such allocation will not be utilized for other clients.

10.3. Updation of risk parameters

The parameters for computation of SPAN margin shall be updated as specified by the relevant authority from time to time. Currently, the parameters shall be updated 6 times in the day, based on the prices at 11:00 a.m., 12:30 p.m., 2:00 p.m., 3:30 p.m., end of the day and begin of the day. Risk parameters generated based on the updated parameters shall be provided on the website

10.4. Extreme Loss margins

Clearing members shall be subject to extreme loss margins in addition to initial margins. The applicable extreme loss margin shall be as specified hereunder or as may be specified by the relevant authority from time to time.

10.4.1. Index Futures contracts

The exposure margin shall be 2%. The extreme loss margin shall be computed on the notional value of the gross open positions in futures contracts, based on the last available trading price of the relevant futures contract.

10.4.2. Short Index Options contracts

The exposure margin shall be 2%. In case of index options contracts that are deep out of the money (i.e., strikes out of the money by more than 10% from the previous day closing underlying price), the applicable extreme loss margin shall be 3%. The extreme loss margin shall be on the notional value of the short open positions in options on index, based on the

last available closing price of the underlying index in the normal market of Capital Market segment of the Exchange.

The extreme loss margin shall be 5% of the notional value of the short open positions in long dated option contracts on index, based on the last available closing price of the underlying index in the normal market of Capital Market segment of the Exchange. For this purpose all option contracts with expiry more than 9 months shall be treated as long dated option contracts

10.4.3. Futures contracts on individual Securities

The extreme loss margins shall be 3.5%. The extreme loss margin shall be on the notional value of gross open position in futures contracts based on the last available trading price of the relevant futures contract.

10.4.4. Short Option contracts on individual Securities

The extreme loss margins shall be 3.5%. In case of options contracts on individual securities that are deep out of the money (i.e., strikes out of the money by more than 30% from the previous day closing underlying price), the applicable extreme loss margin shall be 5.25%. The extreme loss margin shall be on the notional value of short open positions in options on individual securities based on the last available closing price of the underlying security in the normal market of Capital Market segment of the Exchange.

10.4.5. Calendar Spread

In case of calendar spread positions in futures contracts, extreme loss margin shall be levied on one third of the value of the open position of the far month futures contract. A calendar spread position shall be granted calendar spread treatment till the expiry of the near month contract

10.4.6. Extreme loss margin requirement:

1. For client positions - shall be netted at the level of individual client and grossed across all clients, at the trading/ clearing member level, without any set-offs between clients.
2. For proprietary positions - shall be netted at trading/ clearing member level without any set-offs between client and proprietary positions.

The margins so computed shall be aggregated first at the trading member level and then aggregated at the clearing member level.

10.5. Concentration margins

- If any clearing member has a concentration of 20% or more on short side across all contracts in an expiry month of long dated option contracts subject to minimum notional value of Rs.500 crores, concentration margin shall be applicable
- Concentration margins shall be computed as under:

Concentration Level	Concentration Margins
---------------------	-----------------------

20% and above but less than 35% in a particular expiry	1.5% of the notional value of the short open positions in long dated option contracts on index, based on the last available closing price of the underlying index
35% and above but less than 50% in a particular expiry	2.25% of the notional value of the short open positions in long dated option contracts on index, based on the last available closing price of the underlying index
50% and above in a particular expiry	3% of the notional value of the short open positions in long dated option contracts on index, based on the last available closing price of the underlying index

- Concentration margins shall be computed at end of day and shall be blocked from the cash component of the clearing member on a T+1 basis
- For this purpose all option contracts with expiry more than 9 months shall be treated as long dated option contracts

10.6. Additional Margin for highly volatile stocks

- For securities with intra-day price movement (maximum of [High-Low], [High-Previous Close], [Low-Previous Close]) of more than 10% in the underlying market for 3 or more days in last one month, the minimum total margins shall be equal to the maximum intra-day price movement of the security observed in the underlying market in last one month. The same shall be continued till monthly expiry date of derivative contracts which falls after completion of three months from date of levy.
- For securities with intra-day price movement (maximum of [High-Low], [High-Previous Close], [Low-Previous Close]) of more than 10% in the underlying market for 10 or more days in last six months, the minimum total margins shall be equal to the maximum intraday price movement of the security observed in the underlying market in last six months. The same shall be continued till monthly expiry date of derivative contracts which falls after completion of one year from date of levy.

10.7. Imposition of additional margins

As a risk containment measure, the relevant authority may require clearing members to make payment of additional margins as may be decided from time to time. This shall be in addition to the initial margin and exposure margin, which are or may have been imposed from time to time.

10.7.1. Additional Margins on client positions

- Extreme scenario of 20% market fall and 17.74% market rise shall be modelled on all client level portfolios and gross client level losses shall be computed at end of day.

- Net client level losses after considering applicable margins and hedged positions, if any based on the holdings provided by depositories, shall be computed.
- In respect of clients having net loss of Rs.25 crores and more, the full amount of loss in excess of Rs.25 crores shall be levied as Additional Margins.
- Additional Margins shall be blocked from the collaterals of clearing member on T+1 day basis

10.7.2. Collection of option value in Cash

Cash collection of option value shall be applicable for the following contracts

% of Strike Price away (\pm) from the Closing Value of Index/Stock	Applicable on contracts with expiry
$\geq 40\%$	All contracts (stock and Index)
$\geq 30\%$	Index Contracts with expiry from 9 months up to 2 years
$\geq 20\%$	Index Contracts with expiry up to 9 months

- For any fresh net short position created in contracts which meet the above specified criteria (based on end of day closing index/stock price) the net short value shall be collected in cash from clearing member on T+1 day (Along with funds settlement)
- The cash collected shall be retained with Clearing Corporation till expiry of contract or till square-up of short positions.
- In case of partial square-up the cash collected shall be released on proportionate basis.
- The cash release shall be on T+1 day (Along with funds settlement)

10.8. Blocking of Margins and Monitoring

- The procedure for blocking of margins only specifies the order of blocking of collateral available with Clearing Corporation.
- The terms “Client Collateral”, “TM Collateral”, “CP Collateral” and “CM Collateral” shall mean the total of the allocated collateral value plus the value of securities collateral provided through margin pledge/re-pledge by any individual client, TM, CP and CM respectively to Clearing Corporation.
- The TM/CM collateral shall mean the proprietary collateral of the TM/CM only and shall not include the collateral of any of their clients.
- On receipt of a trade from a client account, the margin shall first be blocked from the value of the client collateral. If the client collateral is not sufficient, the residual margin shall be blocked from the TM proprietary collateral of the TM of such client. If the TM proprietary collateral is also not sufficient, then the residual margin shall be blocked from the CM proprietary collateral of the CM of such TM.
- In case of a trade from the proprietary account of a TM, the margin shall first be blocked from the TM proprietary collateral, and in case such collateral is not sufficient, then the residual margin shall be blocked from the CM proprietary collateral.

- Margins based on trades from proprietary account of the CM shall be blocked from the proprietary collateral of the CM only.
- Example of blocking of margins is provided at **Part C (40)** - 'Example for blocking of margins'

For monitoring of the risk reduction mode (90% utilization) and margin violation, the following procedure shall be adopted:

- TM level risk reduction mode: Client margin in excess of 90% of the client collateral shall be identified for each client under a TM. The total of such client margin in excess of 90% of the client collateral, plus the proprietary TM margin shall be assessed against the TM proprietary collateral for monitoring of TM level risk reduction mode.
- CM level risk reduction mode: Sum of client margin in excess of 90% of the client collateral for each client under a TM plus the proprietary TM margin, in excess of 90% of TM proprietary collateral shall be calculated as TM margin in excess of 90% of TM collateral. Sum of such margin for each TM clearing through a CM, plus sum of client margin/CP margin in excess of 90% of the client/CP collateral for each client/CP clearing through such CM, plus the proprietary CM margin shall be assessed against the proprietary CM collateral for monitoring of CM level risk reduction mode.
- Example for monitoring of risk reduction mode is provided at **Part C (41)** - 'Example for monitoring of risk reduction mode.'

10.9. Mode of payment of margin

Clearing members shall provide for margin in any one or more of the eligible collateral as detailed in Item 8 above. The margins shall be collected /adjusted from the liquid assets of a clearing member on a real time basis

10.10. Payment of margins

The initial and extreme loss margin shall be payable upfront by the clearing members. Members are required to collect initial and extreme loss margins from their client/constituents on an upfront basis.

It is mandatory for all clearing /trading members to report details of such margins collected to the Clearing Corporation. The procedure for reporting of client margin is detailed in **Item 15**

10.11. Effect of failure to pay margins

Non-fulfilment of either the whole or part of the margin obligations shall be treated as a violation of the Rules, Bye-Laws and Regulations of the Clearing Corporation. The violation shall attract actions as specified under Item 16. In addition and without prejudice to the foregoing, the Clearing Corporation may, within such time as it may deem fit, advise the Exchange to withdraw any or all of the membership rights of the clearing member including the withdrawal of trading facilities of all trading members and/ or clearing facility of custodial participants clearing through such clearing members, without any notice.

NSE Clearing Limited (Formerly known as National Securities Clearing Corporation Limited) | Exchange Plaza, C-1, Block G, Bandra Kurla Complex, Bandra (E), Mumbai – 400 051, India | +91 22 26598100 | www.nscclindia.com | CIN U67120MH1995PLC092283

In addition, the outstanding positions of such clearing member and/or trading members and/or constituents, clearing and settling through such clearing member, may be closed out forthwith or any time thereafter by the Exchange, at the discretion of the Clearing Corporation, to the extent possible, by placing at the Exchange, counter orders in respect of the outstanding position of clearing member without any notice to the clearing member and/or trading member and/or constituent, and such action shall be final and binding on the clearing member and/or trading member and/or constituent. Clearing Corporation may also initiate such other risk containment measures as it deems fit with respect to the open positions of the clearing member and/or trading member and/or constituent.

Clearing Corporation may, in addition to the foregoing provisions, take additional measures like, imposing penalties, collecting appropriate deposits, invoking bank guarantees, encashment of fixed deposit receipts, realising money by disposing off the securities and exercising such other risk containment measures as it deems fit and may further take such disciplinary action as it may deem fit and appropriate in this regard.

10.12. Maintenance of Capital Cushion

For the purpose of monitoring members who have high capital utilisations, the methodology as specified hereunder shall be adopted, or such other methodology as may be specified by the relevant authority from time to time

- a. At the end of each calendar month, clearing members who have exceeded 90% of utilisation of limits during the day for more than 7 days in the current month shall be identified
- b. The capital required to bring the utilisation of the clearing members to a level of 85% at the time of violating the trigger point of 90% on each of those occasions shall be noted. The highest of such amounts for the identified clearing members during the month shall be called for as additional capital.
- c. The utilisation shall be monitored for both initial margins as well as exposure margin utilisation
- d. The requirement of additional capital shall be communicated to the clearing members on the first day of the subsequent month.
- e. The clearing members shall be required to provide the amount of additional capital in the form of Cash, FDRs or Bank guarantees within three working days
- f. No benefit including exposure, margin etc shall be available to the clearing member on the amount of additional capital so collected.
- g. In case of non- payment of additional capital within the stipulated time limit a penalty as applicable for funds shortage shall be levied for the period of default.
- h. The additional capital so collected shall be retained with the Clearing Corporation for a period of one calendar month
- i. In case a clearing member is liable to provide additional capital in the subsequent month too, the amount of additional capital shall be recomputed and the excess /deficit shall be refunded /called for.
- j. The amount of additional capital shall be informed to the clearing members on the first day of the subsequent month vide letter in the extranet directory.

- k. The letter of intimation of additional capital shall be available to clearing members in the extranet directory FAOFTP/F<MEMBER CODE>/LETTERS/DNLD
- l. Clearing members shall also be provided a provisional capital cushion report on a daily basis intimating the provisional amount of additional capital to be provided along with the number of days when the clearing member has crossed 90% of margin utilisation. The report shall be provided in the extranet directory FAOFTP/F<MEMBER CODE>/LETTERS/DNLD

- c. Only orders which result in reduction of existing open positions at a client level of the trading member shall be accepted through the close-out facility.
- d. Clearing members shall not be allowed to create any fresh position for their trading member in the close-out mode.
- e. Clearing members shall not be allowed to place close out orders with custodial participant code.

ITEM 14: CORE SETTLEMENT GUARANTEE FUND

14.1. Core Settlement Guarantee Fund

Clearing Corporation has established the Core Settlement Guarantee Fund(Core SGF) for F&O segment based on the norms provided under SEBI circular no. CIR/MRD/DRMNP/25/2014 dated August 27, 2014.

The Minimum Required Corpus (MRC) of the Core SGF shall be arrived based on the stress test methodology prescribed by SEBI. Clearing Corporation shall compute the MRC for which shall be subject to the following;

- a. The MRC shall be fixed for a month.
- b. By 15th of every month, Clearing Corporation shall review and determine the MRC for next month based on the results of daily stress tests of the preceding month. Clearing Corporation shall also review and determine by 15th of every month, the adequacy of contributions made by various contributors and any further contributions to the Core SGF required to be made by various contributors for the next month.
- c. For every day of the preceding month, uncovered loss numbers shall be estimated by the various stress tests for credit risk conducted by the Clearing Corporation for the segment and highest of such numbers shall be taken as worst case loss number for the day.
- d. Average of all the daily worst case loss numbers determined in (c) shall be calculated.
- e. The MRC for next month shall be higher of the average arrived in at step (d) and the segment MRC as per previous review.

14.2. Contribution to Core SGF

The contribution to Core SGF from various contributors shall be as follows;

- a. Clearing Corporation contribution to core SGF will be minimum 50% of MRC of segment. Clearing Corporation shall make this contribution from its own funds. Clearing Corporation contribution to core SGFs will be considered as part of its net worth.
- b. Exchange contribution to Core SGF will be minimum 25% of MRC (can be against transfer of profits by Exchange as per Regulation 33 of SECC Regulations).
- c. The total contribution from clearing members to Core SGF for each segment will not be more than 25% of MRC of the respective segment. No exposure shall be available to members on their contribution to Core SGF. The clearing member may bring this contribution in the form of cash, bank fixed deposits or central government securities. The required contributions of each clearing member shall be assessed pro-rata based on the risk they bring to the system.

Clearing Corporation may collect clearing member contribution either upfront or staggered over a period of time. In case of staggered contribution, the remaining balance shall be met by the Clearing Corporation to ensure adequacy of total Core SGF corpus at all times. Such contribution shall be available to Clearing Corporation for withdrawal as and when further contributions from clearing members are received.

14.3. Penalties levied by Clearing Corporation

Any penalties levied by Clearing Corporation (as per Regulation 34 of SECC Regulations) shall be credited to Core SGF.

14.4. Interest on Core SGF cash contribution

Interest on cash contribution to Core SGF shall also accrue to the Core SGF and pro-rata attributed to the contributors in proportion to their cash contribution.

14.5. Penal Charges for Utilisation of Core SGF

In the event of a clearing member failing to meet his obligations to the Clearing Corporation, the Clearing Corporation may, at its discretion, utilise the settlement fund to the extent and in such manner as necessary.

The Clearing Member shall be required to immediately pay the amount so utilised and also pay a penal charge at the rate of 0.07 % per day computed on the amount outstanding from the day on which monies are due to be paid until the day all obligations including shortfall in deposits are fulfilled.

ITEM 15: CLIENT MARGIN/SHORT ALLOCATION REPORTING

In pursuance of Regulation 4.6 of the Futures and Options Segment, provisions relating to Client margin reporting are prescribed as under:

15.1. Client Margin Reporting:

Members are required to collect initial margins (excluding delivery margins) and extreme loss margins from their client/constituents on an upfront basis. Members shall also be required to collect delivery margins and consolidated obligation from their trading member/constituents/clients by T+1 day.

Clearing/trading member shall be required to report a single consolidated value comprising of initial margin, extreme loss margin, delivery margins and consolidated obligation collected

It is mandatory for all clearing /trading members to report details of such margins collected to the Clearing Corporation in accordance with the procedure and formats specified hereunder or as may be specified by the Clearing Corporation from time to time

15.1.1. Intra-day margin reporting

- Clearing Corporation shall send minimum 4 snapshots of client wise margin requirement to clearing /trading members for them to know the intraday margin requirement per trading member/custodial participant/client. The snapshots would be randomly taken in pre-defined time windows
- The margin requirements to be considered for the intra-day snapshots, shall be calculated based on the fixed Beginning of Day (BOD) margin parameters. The BOD margin parameters would include all SPAN margin parameters as well as ELM requirements
- The client wise margin file (MG-12/13) provided by Clearing Corporation to clearing /trading members shall contain the end of day margin requirements of the trading member/custodial participant/client as well as the peak margin requirement of the trading member/custodial participant/client, across each of the intra-day snapshots
- The clearing /trading members shall have to report the margin collected from each trading member/custodial participant/client, as at EOD and peak margin collected during the day

15.1.2. Files to be submitted by the member

The files are required to be uploaded through the NSCCL –MASS using the client margin file upload menu. (NSCCL –MASS >Client Margin>File upload). The members shall be able to upload client margin reporting files at any time during the day through NSCCL –MASS. The facility of uploading the files through the extranet server in the directory /FAOFTP/F<MEMBERCODE>/COLAT/UPLD is also available.

The name of the file to be uploaded by the trading member on the extranet server or thru Nsccl –MASS is F_MRG_TM_<DDMMYYYY>_nn.CSV and that by the clearing member is F_MRG_CM_<DDMMYYYY>_nn.CSV

where:

<DDMMYYYY> is the trade date, TM = Trading Member, CM = Clearing Member and 'nn' is the batch number of the file

The files are required to be uploaded through Nsccl –MASS using the client margin file upload menu.

The files can alternatively be uploaded in the following directory on the extranet server: /FAOFTP/F<MEMBERCODE>/COLAT/UPLD where MEMBER CODE is the 5 digit trading member code of the member. (eg. 09999)

Members are requested to take note of the following whilst uploading the client margin reporting files:

- a. Members are not required to provide member code in the file name
- b. Members are required to provide batch number in every file they upload starting with 01. Thereafter subsequent files are required to have incremental batch numbers viz 02, 03 etc up to maximum of 99. This would enable members to send multiple files for the same trade date with incremental batch numbers. Multiple files may be sent by the member upto five working days after the trade date. Where multiple files are uploaded by the members for a client/constituent/trading member for a trade day, the information of client margin collected as provided in the file with latest batch number for the trade date would be considered as final by the Clearing Corporation. If a file is uploaded with the wrong batch number the return file shall have a message indicating that the batch number is incorrect.
- c. If a member uploads a file with incorrect name, such files shall not be picked up by the Clearing Corporation. In case of files uploaded through the extranet the same file shall be renamed as "<filename>.failed" in the respective member folder in order to facilitate members to ascertain file upload failure.
- d. Zero byte uploaded through the Nsccl –MASS shall not be accepted. In case of zero byte files uploaded through the extranet the same file shall be renamed as "<filename>.failed" in the respective member folder.
- e. In case the files are made by customised software at user end, members may note that a new line character has to be present in the last record in order to ensure proper processing.
- f. Members are requested to refer to the return file every day for the short reporting of margins and initiate necessary corrective actions to ensure that the margins are collected and reported upfront.

Members may note the following procedure for providing client margin details:

NSE Clearing Limited (Formerly known as National Securities Clearing Corporation Limited) | Exchange Plaza, C-1, Block G, Bandra Kurla Complex, Bandra (E), Mumbai – 400 051, India | +91 22 26598100 | www.nscclindia.com | CIN U67120MH1995PLC092283

1. Each row of the margin file MG12 provides the details of initial margin, , extreme loss margins, delivery margins, and consolidated obligation for a proprietary account of trading member and custodian participants, as per the code entered by the members at the time of order entry. The files shall contain end of day total margin to be collected and peak of intra-day margin for each associated Trading Member/Custodial Participant. Clearing Corporation shall provide additional files for clearing members (MG18) as a part of End of Day reports. The files shall contain total margin applicable for each associated Trading Member/Custodial Participant.
2. Each row of the margin file MG13 provides the details of initial margin, extreme loss margins, delivery margins and consolidated obligation for reporting purpose for a specific trading member/client code, as per the code entered by the members at the time of order entry. The files shall contain end of day total margin to be collected and peak of intra-day margin for each client
3. In case of a receivable obligation for a trading member/ constituents/clients the value for consolidated obligation shall be populated as zero.
4. Members are required to add a comma and report a single consolidated value comprising of initial margin, extreme loss margin, delivery margins and consolidated obligation collected figure at the end of each row (for each trading member/client/constituent) in the file representing the actual amount collected from that trading member/client/constituent as the case may be.
5. Members are required to add another comma after the amount of end of day margins reported and report the peak margin amount collected from that trading member/client/constituent as the case may be
6. This figure for amount collected, appended by the member should not be negative.
7. Members are required to ensure that no information provided in the file is modified. Any modification shall result in such record being rejected by the Clearing Corporation.

15.1.3. Return files to the members

A return file shall be generated for all files uploaded by the members for client margin reporting with the correct naming convention.

Members can download return file through NSCCL –MASS using the client margin file download menu.

The return file for member shall also be placed in the extranet directory /FAOFTP/F<MEMBER CODE>/COLAT/DNLD.

In case of any errors in the file, the members would be able to correct the same and upload the same on the extranet server with incremental batch number anytime prior to Trade date +5 working days.

Two types of return files are generated for the members

1. Rejected Files - where the whole file has been rejected
2. Processed File Records - where some or all records in the file have been rejected

1. Rejected Files –

File Naming convention: F_MRG_TMF_MEMBERCODE_<DDMMYYYY>_nn.CSV for trading members and F_MRG_CMF_MEMBERCODE_<DDMMYYYY>_nn.CSV for clearing members

Some reason for which a file may be rejected are mentioned as under

File loaded after the sign off date - Members are allowed to upload client margin reporting file up to T+5 working days. Such files would be rejected with the reason “File is not being processed as file upload date is greater than sign off date”.

File loaded for future date - If the member uploads the file for September 12, 2019 on September 11, 2019, then the return file would indicate the rejection reason as ‘File is not being processed as file date is greater than system current date’.

Member uploads file for an invalid day - If a member is not required to report the client margin file for a day (say Saturday, Sunday, holiday etc.) and still uploads the same, then the return file would be rejected with the message ‘File is not being processed as the member code is invalid for the file date’.

Member uses non-serial batch number in file name - If the batch number provided by the member for a trade date is not in sequence, for example if the member has uploaded two files for the trade date September 12, 2019 with file names F_MRG_TM_12092019_01.CSV and F_MRG_TM_12092019_03.CSV, the second file would be rejected with error message ‘File is not being processed as file batch number is not proper. Last successful batch no for the day was 01’.

File in wrong format - If the member has provided a file which cannot be read by the system for example- non csv file, then return file would be rejected with the message ‘File is not being processed as the file is not in format’.

2. Processed File Records –

File Naming Convention: F_MRG_TMR_MEMBER CODE_<DDMMYYYY>_nn.CSV for trading members and F_MRG_CMR_MEMBER CODE_<DDMMYYYY>_nn.CSV for clearing members

After processing of client margin file, each record would have a reason code indicating acceptance/ rejection, as the case may be. The details of reason codes are as follows:

<i>Reason Code</i>	<i>Description</i>
01	Record size does not match for e.g. extra comma in the record
02	Date in record does not match with file date
03	Record is altered i.e. matching record does not exist in MG-13/MG-12 file. Possible error in date/ client code/ margin amount

04	Record pertains to proprietary position for trading member
05	Record pertains to proprietary position for clearing member
06	Margin amount collected is negative or non numeric.
07	Insufficient Margin
08	Sufficient Margin

- For reason codes 01 to 06, the difference amount, would not be indicated in the return file. However for reason codes 07 and 08, the difference amount would be indicated.
- If the record contains multiple errors for e.g. reason code 01 as well as 06, the reason code which is the lowest in number would appear against the record i.e. reason code 01.

15.2. Deemed allocation and Short Allocation monitoring

- CMs shall ensure that sufficient collateral is allocated to TM Prop/CP/clients to cover their margin requirements. However, if the margin applicable at Clearing Corporation for a TM Prop/CP/client in a segment exceeds the collateral allocated to the TM Prop/CP/client plus the securities collateral re-pledged to Clearing Corporation (from that TM Prop/CP/client's account) in the respective segment, then the proprietary collateral of the TM/CM shall be blocked (including re-pledged/pledged securities and allocated collateral). Such margin blocked from the proprietary collateral towards a TM Prop/CP/client's margin shall be deemed to have been the collateral allocated to that TM Prop/CP/client. This provision shall include deemed allocation of TM's proprietary collateral towards client margins and deemed allocation of CM's proprietary collateral towards TM Prop/CP/client margins.
- CMs shall ensure that allocated collateral plus value of securities collateral re-pledged to Clearing Corporation for a TM Prop/CP/client is at all times greater than or equal to the minimum margin collection requirement for the respective TM Prop/CP/client in the respective segment.
- In case where the allocated collateral plus the securities collateral re-pledged to Clearing Corporation in respect of a TM Prop/CP/client, is falling short of minimum margin collection requirement in the respective segment same shall be considered as short allocation and shall be subject to penalty.

15.2.1. Monitoring of short allocation

- Minimum client margin collection requirement less Client collateral value in the segment (only where client margins are greater than client collateral value) shall be considered short allocation. For this purpose, minimum client margin collection will mean margins required to be collected on upfront basis, excluding margins which can be collected by T+1/T+2.
- Client collateral value in the segment for this purpose shall be collateral value allocated by the CM to the client in the segment + value of securities repledged at Clearing Corporation for that client in the segment (value shall be after applying all prudential norms of Clearing Corporation other than 50:50 requirement).

- Such monitoring of short allocation shall happen intraday at the time of peak margin snapshot and at end of day.
 - Client level short allocation shall be computed intra-day based on the peak margin snapshot in the segment and client collateral value in the segment at the time of the respective peak margin snapshot.
 - Client level short allocation shall be computed at end of day based on the EOD minimum upfront margins required to be collected and client collateral value at EOD.
 - The maximum amount of short allocation across all snapshots and EOD shall be considered as short allocation
- In case of instances of Intraday/ EOD short allocation; members shall have an opportunity to report amount of client collateral available with permitted reasons. In case of such reporting, penalty will not be applicable.
- While assessing the intraday/EOD short allocation, Clearing Corporation will check for availability of excess collateral (allocation and value of pledged securities over and above minimum margin) in other segments for the same TM-UCC (whether with same clearing member or otherwise) or CP. Clearing Corporation shall reduce such excess collateral available in other segments from the intraday short allocation before calculation of applicable penalty. For this purpose, the snapshots across segments for the same time window shall be considered.
- Members shall be provided details of segment wise, client wise, maximum intra-day short allocation as computed by Clearing Corporation after considering excess collateral in other segments, if any.
- Members shall have an opportunity to report amount of client collateral available against such segment wise short allocation due to below mentioned reasons, along with reason codes:
 1. Excess collateral (allocation and value of pledged securities over and above minimum margin) available in another Clearing Corporation.
 2. Trades executed in wrong client code codes
 3. Allocation request submitted to Clearing Corporation however allocation request accepted later.
- Such reporting shall be done by TMs for clients and by CMs for TM proprietary and CP clients.
- In case false reporting, penalty as applicable on false margin reporting will be applicable
- Clearing Corporation shall compute revised short allocation amount after adjusting for the aforementioned reporting.

15.2.2. Reporting of short allocation

15.2.2.1. Files to be provide to members

- Clearing Corporation shall provide client /TM/CP wise details of highest short allocation on a daily basis to TMs/CMs namely SA05 for CMs and SA04 for TMs.
- The format of the files to be downloaded are provided in Part D.

15.2.2.2. Files to be submitted by the member

- TMs/CMs shall be required to be upload reporting files through the NSCCL – MASS using the client margin/SA file upload menu. (NSCCL –MASS >Client Margin/SA Reporting>File upload).
- TMs/CMs shall be able to upload client margin reporting files at any time during the day through NSCCL –MASS
- The name of the file to be uploaded by the TMs shall be F_SA_TM_<DDMMYYYY>_nn.CSV and that by the CMs shall be F_SA_CM_<DDMMYYYY>_nn.CSV

where: <DDMMYYYY> is the trade date,

TM = Trading Member, CM = Clearing Member and

‘nn’ is the batch number of the file

- TMs/CMs are requested to take note of the following whilst uploading the short allocation reporting files:
 - TMs/CMs are not required to provide member code in the file name
 - TMs/CMs are required to provide batch number in every file they upload starting with 01. Thereafter subsequent files are required to have incremental batch numbers viz 02, 03 etc up to maximum of 99. This would enable TMs/CMs to send multiple files for the same trade date with incremental batch numbers. Where multiple files are uploaded by the TMs/CMs for a trade day, the information of client margin collected as provided in the file with latest batch number for the trade date would be considered as final by the Clearing Corporation.
 - If a member uploads a file with incorrect name, such files shall not be picked up by the Clearing Corporation.
 - Zero byte uploaded through the NSCCL –MASS shall not be accepted.
 - In case the files are made by customised software at user end, TMs/CMs may note that a new line character has to be present in the last record in order to ensure proper processing.
 - TMs/CMs are requested to refer to the return file and initiate necessary corrective actions.
- TMs/CMs may note the following procedure for providing short allocation details:

- TMs/CMs are required to add a comma and report the collateral available amount.
- TMs/CMs are required to add another comma after the amount of collateral available amount and specify the reason code. Permitted Reason codes shall be

Reason Code	Particulars
01	Excess collateral available in another CC

- For Reason Code 01, CC code needs to be specified by adding additional comma after reason code in following manner: -
 - For ICCL – IC
 - For NCCL – NC
 - For MCXCCL – MX
- This figure for collateral available appended by TMs/CMs should not be negative.
- TMs/CMs are required to ensure that no information provided in the file is modified. Any modification shall result in such record being rejected by the Clearing Corporation.

15.2.2.3. Return files to the members

- A return file shall be generated for all files uploaded by the TMs/CMs for client margin reporting with the correct naming convention. TMs/CMs can download return file through NSCCL –MASS using the client margin/SA reporting file download menu.
- In case of any errors in the file, TMs/CMs would be able to correct the same and upload the same with incremental batch number anytime prior to sign off date
- Two types of return files are generated for the members
 - a) Rejected Files - where the whole file has been rejected
 - b) Processed File Records - where some or all records in the file have been rejected

a) Rejected Files

- File Naming convention: F_SA_TMF_MEMBERCODE__nn.CSV for TMs and F_SA_CMF_MEMBERCODE__nn.CSV for CMs Some reason for which a file may be rejected are mentioned as under
- File loaded after the sign off date – TMs/CMs shall be permitted to upload short allocation reporting file up to T+5 working days. Such files would be rejected with the reason “File is not being processed as file upload date is greater than sign off date”.

- File loaded for future date - If the uploaded file is for December 12, 2019 on December 11, 2019, then the return file would indicate the rejection reason as 'File is not being processed as file date is greater than system current date'.
- Uploads file for an invalid day - If a TMs/CMs is not required to report the client margin file for a day (say Saturday, Sunday, holiday etc.) and still uploads the same, then the return file would be rejected with the message 'File is not being processed as the TMs/CMs code is invalid for the file date'.
- TMs/CMs uses non-serial batch number in file name - If the batch number provided by the TMs/CMs for a trade date is not in sequence, for example if the member has uploaded two files for the trade date December 12, 2019 with file names F_SA_TM_12092019_01.CSV and F_SA_TM_12092019_03.CSV, the second file would be rejected with error message 'File is not being processed as file batch number is not proper. Last successful batch no for the day was 01'.
- File in wrong format - If the TMs/CMs has provided a file which cannot be read by the system for example- non csv file, then return file would be rejected with the message 'File is not being processed as the file is not in format'.

b) Processed File Records –

- File Naming Convention: F_SA _TMR_MEMBER CODE__nn.CSV for TMs and F_SA _CMR_MEMBER CODE__nn.CSV for CMs
- After processing of client margin file, each record would have a reason code indicating acceptance/ rejection, as the case may be. The details of reason codes are as follows:

<i>Reason Code</i>	<i>Description</i>	<i>Success/Rejected Flag (S/R)</i>
01	Record size does not match for e.g. extra comma in the record	R
02	Date in record does not match with file date	R
03	Record is altered i.e. matching record does not exist in SA-04/SA-05 file. Possible error in date/ client code/ margin amount	R
04	Invalid Reason code specified in the member file	R
05	Invalid CC code/CC code not provided for reason code 01/ CC code provided for reason code other than 01	R
06	Amount is non-numeric	R
00	Collateral reported by member under specified reason code in file is less than, equal or greater than Short Allocation reported by CC	S

- If the record contains multiple errors for e.g. reason code 01 as well as 06, the reason code which is the lowest in number would appear against the record i.e. reason code 01.

15.3. Sign-off date

The cut off day upto which a member may report client margin/short allocation details to the Clearing Corporation is referred to as the sign off date.

It shall be 5 working days after the trade date i.e. members are allowed to upload client margin/short allocation reporting file up to T+5 working days.

15.4. Shortage computation

The margins reported/short allocation shall be compared in the following manner:

(a) EOD margin obligation of the client/trading member /custodial participant shall be compared with the respective client/trading member/custodial participant margin available with the trading/clearing member at EOD.

AND

(b) Peak margin obligation of the client/trading member/custodial participant, across the snapshots, shall be compared with respective client/trading member/custodial participant peak margin available with the trading/clearing member during the day

AND

(c) Highest of intraday/EOD short allocation amount (after considering excess collateral across segments and the reporting for valid reason codes if any)

Higher of the shortfall in collection of the margin obligations at (a), (b) and (c) above, shall be considered for levying of penalty.

15.5. Non-reporting/ non submission of client margin:

All instances of non-reporting of client margins by the members shall be treated similar to and as 100% short reporting of client margins and accordingly penalties shall be imposed.

15.6. Penalty for short / non-reporting of client margin/short allocation:

Penalty shall be levied in case of short/ non-reporting by trading/clearing member as per **Item 16**.

15.7. Letters for penalty

Letters for client margin penalty shall be downloaded to the members on NSCCL –MASS and also through extranet into their respective folders. (Path: /FAOFTP/F<MEMBER CODE>/LETTERS/DNLD)

15.8. No Margin Liability

Clearing/trading members who have no margin liability i.e. both initial margin and exposure margin is zero, shall not receive any margin file. If the clients of clearing / trading member do not have any margin liability i.e., where both initial margin and exposure margin is zero for a client, such clients shall not be reflected in MG 12 and MG 13 files and SA04/SA05 files.

15.9. Statement of account of settlement & client margin

Clearing / trading members are required to collect upfront margins from their respective trading members/constituents. In this respect, every clearing /trading member is required to send a complete statement of account for settlements and margins as reported in the client margin files submitted to the Clearing Corporation in respect of trading member/constituents in such periodicity as specified by the Exchange/Clearing Corporation from time to time. The clearing/trading members are required to obtain confirmation from the trading member /constituents/clients on an on going basis and preserve such records for presentation to the relevant authority.

ITEM 16: VIOLATIONS AND PENALTY

In pursuance of Bye-law 16 of Part B of Chapter VI pertaining to Clearing and Settlement of deals and Chapter VIII of the Bye-laws pertaining to Margins and Chapter 4 of the Regulations, the following requirements are prescribed

16.1. Violation

Non-compliance of any provisions of the Rules, Bye-laws and Regulations by any clearing / trading member shall be treated as a violation and shall attract appropriate action under the Rules, Bye-laws and Regulations of the Clearing Corporation, against such clearing / trading member. Violations shall be treated to have been committed ipso facto.

Notwithstanding the generality of the above provisions, violations in relation to any member may, inter-alia, shall be as specified hereunder or as may be specified from the relevant authority from time to time.

16.2. Non fulfilment of initial margin obligations

When the initial margin liability of a clearing member exceeds his effective deposit less minimum liquid networth or the margin liability of a trading member exceeds the margin limit specified by his clearing member, at any time, including during trading hours it shall be treated as a violation

In the event of a violation, the Clearing Corporation may advise the Exchange to withdraw any or all of the membership rights of the clearing member including the withdrawal of trading facilities of all trading members and/ or clearing facility of custodial participants clearing through such clearing members. In case of violation by trading member the Clearing Corporation may advise the Exchange to withdraw trading facilities of the trading member.

Additionally, penalty and penal charge as mentioned in 16.8 shall be levied for Non fulfilment of initial margin obligations

16.3. Non-fulfilment of settlement obligation

Non-fulfilment of settlement obligation towards settlement of futures and options contracts by the scheduled date and time shall be treated as a violation.

In case of a settlement shortage of Rs. 5 lakhs or more the Clearing Corporation may advise the Exchange to withdraw any or all of the membership rights of the clearing member including the withdrawal of trading facilities of all trading members and/ or clearing facility of custodial participants clearing through such clearing member.

In case of settlement shortage of less than Rs.5lakhs the amount of shortage shall be blocked from the effective deposits of the clearing member to the extent of funds shortage. This may lead to the withdrawal of the trading facility of the clearing member and the associated trading member.

Further, if the clearing member is short for an amount of Rs 2 lakhs or more in six or more occasions in the preceding three months, the Clearing Corporation may advise the Exchange to withdraw any or all of the membership rights of the clearing member including the withdrawal of trading facilities of all trading members and/ or clearing facility of custodial participants clearing through such clearing members.

In case of any over-night settlement shortages a penal charges of 0.07% per day of shortage shall be levied

The funds defaulting member will be allowed such time as may be permitted by the relevant authority depending upon the facts of the case to bring in the amount in default. If the member does not bring in the amount by the time permitted by the relevant authority, and continues to default thereafter, the relevant authority would be constrained to initiate suitable action including withdrawal of his trading facility, appropriation of his capital / deposits with the Exchange / Clearing Corporation and/or declare him a defaulter.

16.4. Non-fulfilment of securities deliverable obligation

Clearing members failing to fulfil their securities deliverable obligations to Clearing Corporation shall be subjected to a penalty charge of 0.05% per day. Further, the valuation amount of the shortage shall be considered as funds shortages where shortage confirmation is not received from the bank and penal action as prescribed for settlement obligation above shall be applicable

16.5. Non-fulfilment of minimum deposit requirements

Any failure on the part of a clearing member to meet with the minimum deposit requirements as given in Item 9, at any point of time, shall be treated as a violation.

In case of shortage in minimum deposit requirements of Rs.5 lakhs or more the Clearing Corporation may advise the Exchange to withdraw any or all of the membership rights of the clearing member including the withdrawal of trading facilities of all trading members and/ or clearing facility of custodial participants clearing through such clearing members.

In case of shortage in minimum deposit requirement of less than Rs.5lakhs the clearing member shall require to replenish the shortfall immediately but in any case not later than one week. In case the shortfall is not replenished for a period of more than one week, the Clearing Corporation may advise the Exchange to withdraw any or all of the membership rights of the clearing member including the withdrawal of trading facilities of all trading members and/ or clearing facility of custodial participants clearing through such clearing members

In addition to the above, penal charges of 0.07% per day on the amount of shortages shall be levied.

16.6. Extreme loss margin violation

When the extreme loss margin of a clearing member exceeds his liquid net worth, at any time, including during trading hours it shall be treated as a violation.

In the event of a violation, the Clearing Corporation may advise the Exchange to withdraw any or all of the membership rights of the clearing member including the withdrawal of trading facilities of all trading members and/ or clearing facility of custodial participants clearing through such clearing members.

Additionally, penalty and penal charge as mentioned in 16.8 shall be levied for exposure margin obligations

16.7. Trading member wise position limit violation

When the open position of any trading member, exceeds the limit specified as per item 11 above at any time, including during trading hours in any index/security, trading member shall be restrained from taking any further position only in respect of index/security in which there is violation and trading member shall be required to bring their position within specified limit.

Additionally, penalty as mentioned in 16.8 shall be levied for trading member wise position limit violation

16.8. Penalty and penal charges for margin/limit violation

In respect of violation mentioned in 16.2, 16.6 and 16.7 penalty for margin / limit violation shall be levied on a monthly basis based on slabs as mentioned below or such other amount as specified by the Clearing Corporation from time to time

Instances of Disablement	Penalty to be levied
1st instance	0.07% per day

ITEM 18: ADJUSTMENTS FOR CORPORATE ACTIONS

In pursuance of Bye-law 12 of Part B of Chapter VI of the Bye-laws pertaining to Clearing and Settlement of deals, Regulation 5A5 of Chapters 5A of the Regulations, the following provisions for adjustment of open positions, in all derivative contracts on individual securities, for corporate actions are prescribed:

18.1. Adjustment for Corporate Actions

The basis for any adjustment for corporate action shall be such that the value of the position of the market participants on cum and ex-date for corporate action shall continue to remain the same as far as possible.

18.2. Time of Adjustment

Any adjustment for corporate actions shall be carried out on the last day on which a security is traded on cum basis in the underlying equities market, after the close of trading hours.

18.3. Adjustment

Adjustments shall mean modifications to positions and / or contract specifications as listed below such that the basic premise of adjustment laid down under 18.1 above is satisfied:

- a) Strike Price
- b) Position
- c) Market Lot / Multiplier

The adjustments shall be carried out on any or all of the above, based on the nature of the corporate action. The adjustments for corporate actions shall be carried out on all open Positions.

18.4. Corporate actions to be adjusted

The corporate actions may be broadly classified under stock benefits and cash benefits. The various stock benefits declared by the issuer of capital are:

- Bonus
- Rights
- Merger / De-merger
- Amalgamation
- Splits
- Consolidations
- Hive-off
- Warrants, and
- Secured Premium Notes (SPNs) among others.
- Extraordinary dividends

18.5. . Methodology for adjustment

The methodology to be adopted for adjustment of corporate actions to be carried out shall be as follows:

18.5.1. Bonus, Stock Splits and Consolidations

Strike Price: The new strike price shall be arrived at by dividing the old strike price by the adjustment factor as under.

- *Market Lot / Multiplier:* The new market lot / multiplier shall be arrived at by multiplying the old market lot by the adjustment factor as under.
- *Position:* The new position shall be arrived at by multiplying the old position by the adjustment factor as under.

The adjustment factor for Bonus, Rights, Stock Splits and Consolidations is arrived at as follows:

18.5.1.1. Bonus

Ratio - A : B

Adjustment factor : $(A+B)/B$

18.5.1.2. Rights

Number of Existing shares	= A
Rights Entitlement (Rights to subscribe)	= B
Total Entitlement	= A+B
Underlying close price on the last cum date	= P
Issue price of the rights	= S
Benefits per share	= E
Benefit per Right Entitlement	= $(P - S)$

$$E = (P-S)/(A+B)$$

$$\text{Adjustment Factor is } = (P-E)/P$$

Dividend if any, declared by the company along with rights shall be adjusted as per the prevailing dividend adjustment policy in F&O Segment.

18.5.1.3. Stock Splits and Consolidations

Ratio - A : B

Adjustment factor : A/B

18.5.2. Adjustment in case of fractions

The above methodology may result in fractions due to the corporate action e.g. a bonus ratio of 3:7. With a view to minimising fraction settlements, the following methodology shall be adopted:

1. Compute value of the position before adjustment
2. Compute value of the position taking into account the exact adjustment factor
3. Carry out rounding off for the strike price and market lot
4. Compute value of the position based on the revised strike price and market lot

The difference between 1 and 4 above, if any, shall be decided in the manner laid down by the relevant authority by adjusting strike price or market lot, so that no forced closure of open position is mandated.

18.5.3. Merger / Demerger

On announcement of the record date for merger/demerger, the last cum-date for merger/demerger would be determined by the Exchange/ Clearing Corporation. The date of expiration of all contracts in the underlying which shall cease to exist subsequent to the merger/demerger, shall be the last cum date, which shall be informed to the members.

- Pursuant to the announcement of the record date, no fresh month contracts on Futures and Options would be introduced in the underlying which shall cease to exist, subsequent to the merger/demerger.
- Un-expired contracts in the underlying, which shall cease to exist subsequent to the merger/demerger, outstanding as on last cum-date shall be compulsorily settled at the settlement price. The settlement price shall be the last available closing price of such underlying in the Capital Market segment of National Stock Exchange, on the last cum-date.

18.5.4. Extra Ordinary Dividends

Dividends which are below 2% of the market value of the underlying stock would be deemed to be ordinary dividends and no adjustment in the strike price would be made for ordinary dividends.

For extra-ordinary dividends at or above 2% of the market value of the underlying security, all positions in existing strike prices shall continue to exist in the corresponding new adjusted strike prices for respective option contracts. All open positions shall be carried forward at the daily settlement price less dividend amount for the respective futures contract.

18.5.5. Other corporate actions

The relevant authority may, on a case by case basis, carry out adjustments for other corporate actions in conformity with the above guidelines, including compulsory closing out, where it deems necessary.

Any change and/ or modification in the methodology for adjustments of futures and option contracts on individual securities, from the methodology detailed above, shall be notified by the Clearing Corporation from time to time

- Stamp Duty shall be collected on transactions for both futures and option contracts executed on stock exchanges and received for clearing and as specified in circulars issued from time to time.
- Stamp duty shall be determined at the end of each trading day
- All the transactions shall be identified based on the client code placed by the members at the time of order entry on the trading system of the Exchanges and as may be modified by the member using the client code modification facility provided by the Exchanges within the prescribed time viz. during trading hours and upto the trade modification close time on the respective trading day. In respect of proprietary transactions the member code shall be deemed to be the client code.
- Members may note that the value of taxable securities transaction and the applicable State/Union Territory (UT) shall be determined with respect to the trade executed under a particular client code. Therefore, the Clearing Corporation shall only reckon the client code entered by the member while placing the order or as may be modified within the prescribed time. It is therefore imperative that members exercise extreme caution and diligence while entering the client code at the time of entering an order. If the state/UT of the client is not available then the state of the trading member through whom the transaction was executed will be considered.
- For the purpose of stamp duty, each futures trade shall be valued at the actual traded price and option trade shall be valued at premium.
- For each client code, all the buy transactions for a trading day shall be aggregated at contract level.
- Stamp duty at the rates as applicable to securities other than debenture on delivery basis and on non-delivery basis shall also be applicable to physically settled stock derivatives (both Futures and Options). The said stamp duty will be payable by the Purchaser (receiver) of the securities. For this purpose stamp duty shall be computed on final settlement price
- Clearing Corporation shall not be collecting stamp duty in respect of clients from State of Sikkim

21.2 Stamp Duty computation

21.2.1 Computation of stamp duty at contract client level:

21.2.1.1 Computation of stamp duty on equity futures:

- a. Each futures buy trade shall be valued at the actual traded price: Total Buy Value (BVAL) - This is the sum of the trade value (Trade quantity * Trade price for each trade) of all buy trades for the client.
- b. Stamp Duty shall be calculated by applying the prescribed rate: Stamp Duty (BVALSTD) = BVAL* stamp duty rate on equity futures. The value so computed shall be rounded off to two decimals.

21.2.1.2 Computation of stamp duty on equity options:

- a. Each option buy trade shall be valued at the premium paid: Total Buy Value (BVAL) - This is the sum of the trade value (Trade quantity * Trade premium for each trade) of all buy trades for the client
- b. Stamp Duty shall be calculated by applying the prescribed rate: Stamp Duty (BVALSTD) = BVAL * stamp duty rate on equity options. The value so computed shall be rounded off to two decimals.

21.2.1.3 Computation of stamp duty for equity futures & options delivery settlement:

- a. For equity futures & options settled physically settled stamp duty will be applicable on delivery basis and non-delivery basis:
 - I. Total Buy quantity (BQTY): This is the sum of the quantity of all buy (security receivable) positions of futures and options
 - II. Total Sell quantity (SQTY): This is the sum of the quantity of all sell (security deliverable) positions of futures and options
 - III. Total Buy Deliverable Quantity (BDQTY): This is the sum of the quantity of all buy (security receivable) positions for the client where $BDQTY = BQTY - SQTY$ if $BQTY > SQTY$
 - IV. Total Buy Non-Deliverable Quantity (BNDQTY): This is the quantity which is lower of the two quantities namely total buy quantity (security receivable) and total sell quantity (security deliverable) for the client for a particular day.
 - V. Total Buy Deliverable Value (BDVAL): This is the sum of the transaction value (BDQTY (as per III above) * Final Settlement Price) for the client
 - VI. Total Buy Non-Deliverable Value (BNDVAL): This is the sum of the transaction value (BNDQTY (as per IV above) * Final Settlement Price) for the client
- b. Stamp Duty shall be calculated by applying the prescribed rate:
 - I. Stamp Duty on Buy Non-Deliverable Value (SDBNDVAL) = BNDVAL * Stamp Duty Rate for securities other than debentures on non-delivery basis. The value so computed shall be rounded off to two decimals.
 - II. Stamp Duty on Buy Deliverable Value (SDBDVAL) = BDVAL * Stamp Duty Rate for securities other than debentures on delivery basis. The value so computed shall be rounded off to two decimals.

21.2.2 Computation of stamp duty at client level:

The total stamp duty liability for a client will be arrived at by summing up the total stamp duty for each contract/delivery settlement arrived at as above and rounded off to the nearest rupee i.e. value with 50 paise and above will be increased to one rupee and value less than 50 paise it shall be ignored.

21.2.3 Computation of stamp duty at trading member level:

The total stamp duty liability for a trading member will be arrived at by summing up the total stamp duty for each client.

21.2.4 Computation of stamp duty at clearing member level:

The total stamp duty liability for a clearing member will be arrived at by summing up the total stamp duty for each trading member.

21.3 Information to members:

- Reports named 'F_SD01_<MEMBER CODE>_DDMMYYYY.CSV' & 'F_SD03_<MEMBER CODE>_DDMMYYYY.CSV' shall be provided to trading members at the end of trading day mentioning "Stamp Duty file for trading member" and "Stamp Duty file delivery settlement for trading member" respectively.
- Similarly reports named 'F_SD02_<MEMBER CODE>_DDMMYYYY.CSV' & 'F_SD04_<MEMBER CODE>_DDMMYYYY.CSV' shall be provided to clearing members at the end of trading day mentioning "Stamp Duty file for Clearing member" and "Stamp duty file delivery settlement for Clearing member" respectively.
